Moonlit Palette Companion

Three little gardens of color. Choose the closest shades you already own.

Illustrated museum setting. Mood inspiration, not a coloring-book page.

01 Lavender moonlight

Lavender	Sage	Plum	Ivory

Let lavender and sage lead; save plum for small shadows.

02 Lantern garden

Moss	Rose	Amber	Brown

Choose a warm focal point and repeat amber in a few details.

03 Winter blue

Blue-gray	Lilac	Deep blue	Cream

Use blue-gray for larger shapes and cream for the lightest details.

Screen and print colors vary. These are mood references, not exact pencil matches.
